

Below are a series of myths and facts about the AEVIT™ System.

## MYTH

AEVIT has a 10 year service life

---

AEVIT cannot be moved between vehicles

---

AEVIT Input adjustability is very limited

---

All vehicles need to be shipped to Maine for installation

---

The AEVIT system is primarily intended for drivers who want full control of both steering and gas/brake, and not for those who only need gas/brake control

## FACT

With the release of AEVIT 2.0 in 2008, there is no longer a service life. EMC can service AEVIT equipment for as long as parts are available

---

The AEVIT system can be transferred and reinstalled in virtually any vehicle

---

AEVIT inputs have a broad range of adjustability, both mechanically and electronically, to fit the needs of any driver

---

There are AEVIT installation facilities throughout the United States. Steering columns do not need to be shipped out of the country for service and modification

---

The AEVIT system is designed to fit the individual needs of the driver, with the ability to be modified as those needs change
