# A.I. Commander

The A.I. Commander sets the performance standard for user-friendly access to important secondary controls while driving, utilizing the latest speech recognition technology to transform the trained user's voice commands into vehicle functions. With the A.I. Commander, the AEVIT™ System is your all-in-one solution for high-tech adaptive driving, delivering a unified and intelligent driving experience!

Control secondary functions via the touchscreen, low effort switches, and/or **voice**!

- Right Signal
- Dimmer
- A.I. Commander Volume
- Horn
- Left Signal
- Wipers
- Start/Stop
- Shifting
- Hazards
- Front/Rear Fans
- Cruise Control

The A.I. Commander can be activated through a low-effort button, a power headrest, a Magnabox, an orthotic tri-pin or pin switch.
